PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years delivering enterprise web applications using ASP.NET Core 8, React.js, Next.js, and SQL Server across e-commerce, insurance, SaaS, and HR domains. Expertise in Clean Architecture, JWT/OAuth APIs, CI/CD, Azure/AWS cloud deployment, and LLM evaluation.

PROFESSIONAL EXPERIENCE

ACME ONE — Full Stack Developer | January 2025 – Present

- Delivered enterprise apps on schedule with 8+ engineers by architecting ASP.NET Core 8, React.js, and MSSQL solutions in an Agile Scrum framework.
- Reduced UI development time by 30% by building a modular React component library with Material-UI and Tailwind CSS for reuse across cross-functional teams.
- Secured 5+ production APIs with zero auth breaches by implementing JWT, OAuth 2.0, and RBAC with Entity Framework Core via GitHub Actions and Azure DevOps CI/CD.
- Boosted SQL Server query performance by 40% on 500K+ records by re-engineering stored procedures and LINQ queries with AG Grid server-side pagination.

Byte Impulse — Backend Developer | September 2022 – August 2024 (2 Years)

- Shipped 3 game titles to Google Play at production quality by engineering game architecture, physics, animations, and UI using Unity and C#.
- Enabled subscription revenue for 1,000+ users with zero payment failures via RESTful .NET Framework APIs with SQL Server and integrated payment processing.

LLM Evaluation & AI Training Specialist — Freelance | September 2024 – Present

- Improved LLM reasoning accuracy by ~15-20% across 500+ trajectories by reviewing and correcting AI decision paths using Python, Docker, and Git evaluation workflows.
- Reduced suboptimal outputs by annotating 200+ flawed reasoning samples, directly contributing to measurable model quality benchmarks.

TECHNICAL SKILLS

Languages & Frameworks: C#, JavaScript, TypeScript | ASP.NET Core 8, .NET, React.js, Next.js, Node.js, Razor Pages, Blazor

UI & Databases: Material-UI, Tailwind CSS, Redux, AG Grid, Three.js | SQL Server, MySQL, PostgreSQL

DevOps & Cloud: Git, GitHub Actions, Azure (App Services, SQL DB, CI/CD), AWS (S3, RDS, EC2), Docker

Architecture & Methods: Clean Architecture, MVC, RESTful APIs, Microservices, Agile/Scrum, CI/CD, xUnit, MSTest

Auth & AI: JWT, OAuth 2.0, RBAC | LLM Evaluation, Prompt Engineering, AI Annotation

KEY PROJECTS

Superior Seat LLC | Next.js, ASP.NET Core 8, Three.js, MySQL, Entity Framework, JWT |

<https://www.superiorseatingllc.com/>

- Eliminated in-person sales consultations for 100% of product configurations by launching a real-time 3D seat configurator with Next.js (SSR/CSR) and Three.js.

- Secured all user roles with zero post-launch incidents by implementing JWT auth and RBAC on ASP.NET Core 8 with MySQL and Entity Framework.

General Star Insurance Platform | *React.js, ASP.NET Core, Entity Framework, SQL Server, Material-UI, AG Grid*

- Enabled sub-second rendering of 100K+ row datasets by implementing AG Grid server-side pagination with optimized SQL Server stored procedures, cutting client load by 80%.
- Accelerated frontend delivery by 25% by building a reusable React/Material-UI component library following Clean Architecture principles.

AIIM One — Enterprise Business Platform | *React.js (Monorepo), ASP.NET Core 8 (Multi-solution), REST APIs* | <https://nucleusone.aiimone.com/>

- Unified 4 enterprise modules (finance, training, operations, time tracking) into one ecosystem via a React monorepo frontend with independently deployable ASP.NET Core 8 APIs.

Squch — Event Booking & Community Platform | *React.js, Node.js, Express.js, MySQL, REST APIs (Full Stack)* | squch.com

- Engineered the core Event Service from scratch — handling real-time event creation, ticketing, and discovery — by designing a scalable Node.js/Express.js REST API with MySQL as a Full Stack Developer.
- Enabled live artist-community interaction for concert audiences by building real-time chat and event-booking features using React.js on the frontend and RESTful Node.js/Express.js APIs on the backend.

LMS Global — Intech | HourHub | *.NET MVC / ASP.NET Core, Razor Pages, SQL Server* | intechwww.com | app.hourhub.ch

- Automated multi-tier leave approvals for 4,000+ employees (LMS) and reduced timesheet discrepancies across distributed teams (HourHub) using .NET MVC, ASP.NET Core, and SQL Server.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Science | The University of Lahore, Pakistan | 2018 – 2022

Certification: Full Stack Web Development with Advanced AI | PNY Training Institute, Lahore | 2023

Languages: English — Professional Working Proficiency | Urdu — Native
